

Industry Forum for Request for Qualifications for Rail Delivery Partner

RFQ No. HSR 14-66

Friday, January 23, 2015

9:30 a.m. to 12:30 p.m.

California Department of Public Health, Auditorium
1500 Capitol Avenue
Sacramento, CA 95814

The California High-Speed Rail Authority (Authority) is seeking statements of qualifications from qualified firms for the Rail Delivery Partner contract.

The California High-Speed Rail Program (Program) is expanding from the planning and preliminary design phases to project delivery and operations. As the Authority evolves to meet these changing needs, the role of key contractors will need to be adjusted to reflect the status of the Program.

Prior to release of this Request for Qualifications, the Authority conducted market outreach related to the procurement of these services. Based on internal review and external feedback, the Authority developed an approach to seek an expanded team with proven experience in both large scale program management and international high-speed rail technical delivery.

Please join representatives from the Authority at this Industry Forum to network and learn more about the requirements of the contract, how to bid and the importance of small business participation.
