1.0 California High-Speed Rail Authority Background

The California High-Speed Rail Authority (Authority) is responsible for planning, designing, building and operation of the first high-speed rail system in the nation. California high-speed rail will connect the mega-regions of the state, contribute to economic development and a cleaner environment, create jobs and preserve agricultural and protected lands. By 2029, the system will run from San Francisco to the Los Angeles basin in under three hours at speeds capable of over 200 miles per hour. The system will eventually extend to Sacramento and San Diego, totaling 800 miles with up to 24 stations. In addition, the Authority is working with regional partners to implement a state-wide rail modernization plan that will invest billions of dollars in local and regional rail lines to meet the state's 21st century transportation needs.

The Authority may enter into contracts with private and public entities for the design, construction and operation of high-speed rail trains including all tasks and segments thereof pursuant to California Public Utilities Code §185036. Additional authority for a state agency to enter into a contract agreement includes but is not limited to, Public Contract Code Sections 10335, et seq.

The Authority intends to finance the Project with State and Federal funding, including funds provided by the Federal Railroad Administration (FRA) and funding made available through the American Recovery and Reinvestment Act of 2009 (ARRA). The Authority will act as the FRA-designated recipient for Federal transportation funds. The ARRA portion of the funding must be invoiced by the Authority to the FRA by June 30, 2017, and expires on September 30, 2017, making efficiency of performance under this contract critical.

Any services or work performed must be consistent and/or compliant to the conditions set forth within the following:

2.0 Purpose and Overview of RFP

The following list provides a general overview of information related to the subject of this Request for Proposals (RFP):

-
- The Authority is issuing this RFP to receive Proposals from qualified firms (Proposers) to provide Right-of-Way (ROW) Services.
 - This procurement will be based on the combined Technical Proposal, Cost Proposal, and Interview scores. Responsive Proposals submitted in response to this RFP will be evaluated with the intent of awarding contracts to the highest ranked Proposers.
 - The selected Proposers may be working with the Federal Railroad Administration (FRA), Surface Transportation Board (STB), California Public Works Board (PWB), California Department of Transportation (Caltrans), California Department of General Services (DGS), other partnering agencies and contractor(s) on the California High-Speed Rail Project.
 - The contract period will start upon DGS approval of the contract and is anticipated to extend five years. The Work will start with a Notice to Proceed (NTP) and will be managed through Task Orders. No Work may begin prior to the receipt of a Notice to Proceed and Task Order.
 - The RFP is anticipated to award multiple contracts not to exceed \$34,000,000 to \$44,000,000 for all contracts. Contracts awarded under this RFP may be for different not to exceed amounts. The entire not to exceed amount may also be transferred between contracts awarded as necessary at the sole discretion of the Authority.
 - This RFP incorporates by reference the Authority's Revised Small and Disadvantaged Business Enterprise Program for Professional Services Contracts, dated August 20, 2012, establishes a 30 percent Small Business Enterprise (SBE) utilization goal, which is inclusive of a 10 percent Disadvantaged Business Enterprise (DBE) goal and a three percent Disabled Veteran Business Enterprises (DVBE). Further details about the Authority's goal and its SBE/DBE program may be found on the Authority's website (http://www.hsr.ca.gov/Programs/Small_Business/index.html).
 - The RFP will be available in electronic format on the State's Contract Register at <http://caleprocure.ca.gov> and a link can be found on the Authority's website at www.hsr.ca.gov.

All questions regarding this RFP must be submitted in writing to the individual identified in Section 3.1 of this RFP by the date and time listed in Section 3.0, Table 1. Responses to questions submitted will be posted on the State's Contract Register for the benefit of all participants.

2.1 Brief Description of Services

See Draft Agreement, Attachment E, and Exhibit A for the full Scope of Work.

The selected Contractors will be responsible for providing each of the major Tasks involved in the full range of services for real property acquisition for the System, including:

1. Administration and Project Management

-
2. Appraisal
 3. Phase I and Phase II Environmental Site Assessment (ESA)
 4. Land Rights and Real Property Acquisition/Condemnation
 5. Property Management
 6. Relocation Assistance
 7. Other Real Property Services, as required.

Right-of-way engineering and surveying services in support of the acquisition effort will be provided by the Authority and other third party contractors. This includes provision of appraisal maps, legal descriptions, exhibits needed for transactions, and staking and boundary marking. The selected Contractors will work closely with the Authority staff and the engineering and surveying services providers to coordinate receipt of these documents and services.

The Authority is required to follow the statutory requirements of the Property Acquisition Law, located in Government Code sections 15850-15866, in addition to the California Eminent Domain Law and the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (as amended) (Uniform Act). The Property Acquisition Law requires oversight from the Authority's Partner Agencies (unlike Caltrans, which has certain exemptions) including the State's Department of General Services, Department of Finance and Public Works Board.

The geographic scope of the Project extends primarily from Merced to Bakersfield. This geographic area includes but is not limited to the three Design-Build Contracts that have been awarded, as well as the areas north of CP 1 to Merced and south of CP 4 to Bakersfield. Work may also include early acquisition activities, in compliance with environmental law, between Merced and San Jose. Each Design-Build Contract includes a ROW Acquisition Plan with exhibits detailing the limits of each construction package and the schedule for delivery. The Right-of-Way Acquisition Plans for CP 1, CP 2-3, and CP 4 are located on the Authority's website:

- CP 1:
http://www.hsr.ca.gov/docs/programs/construction/HSR_13_06_B3_PtE_Sub4_Right_of_Way_Acquisition_Plan.pdf
- CP 2-3:
http://www.hsr.ca.gov/docs/programs/construction/CP23_RFP_13_57/mandatory/P13_57_IVA_01_ROW_Acquisition_Plan_CP23.pdf
- CP 4:
http://www.hsr.ca.gov/docs/programs/construction/CP4_executed/P14_32_IR_IVA_01_ROW_Acquisition_Plan.pdf

The Right-of-Way Acquisition Plans are provided for information only and may not reflect the most up-to-date information. Current Right-of-Way Acquisition Plan information will be provided

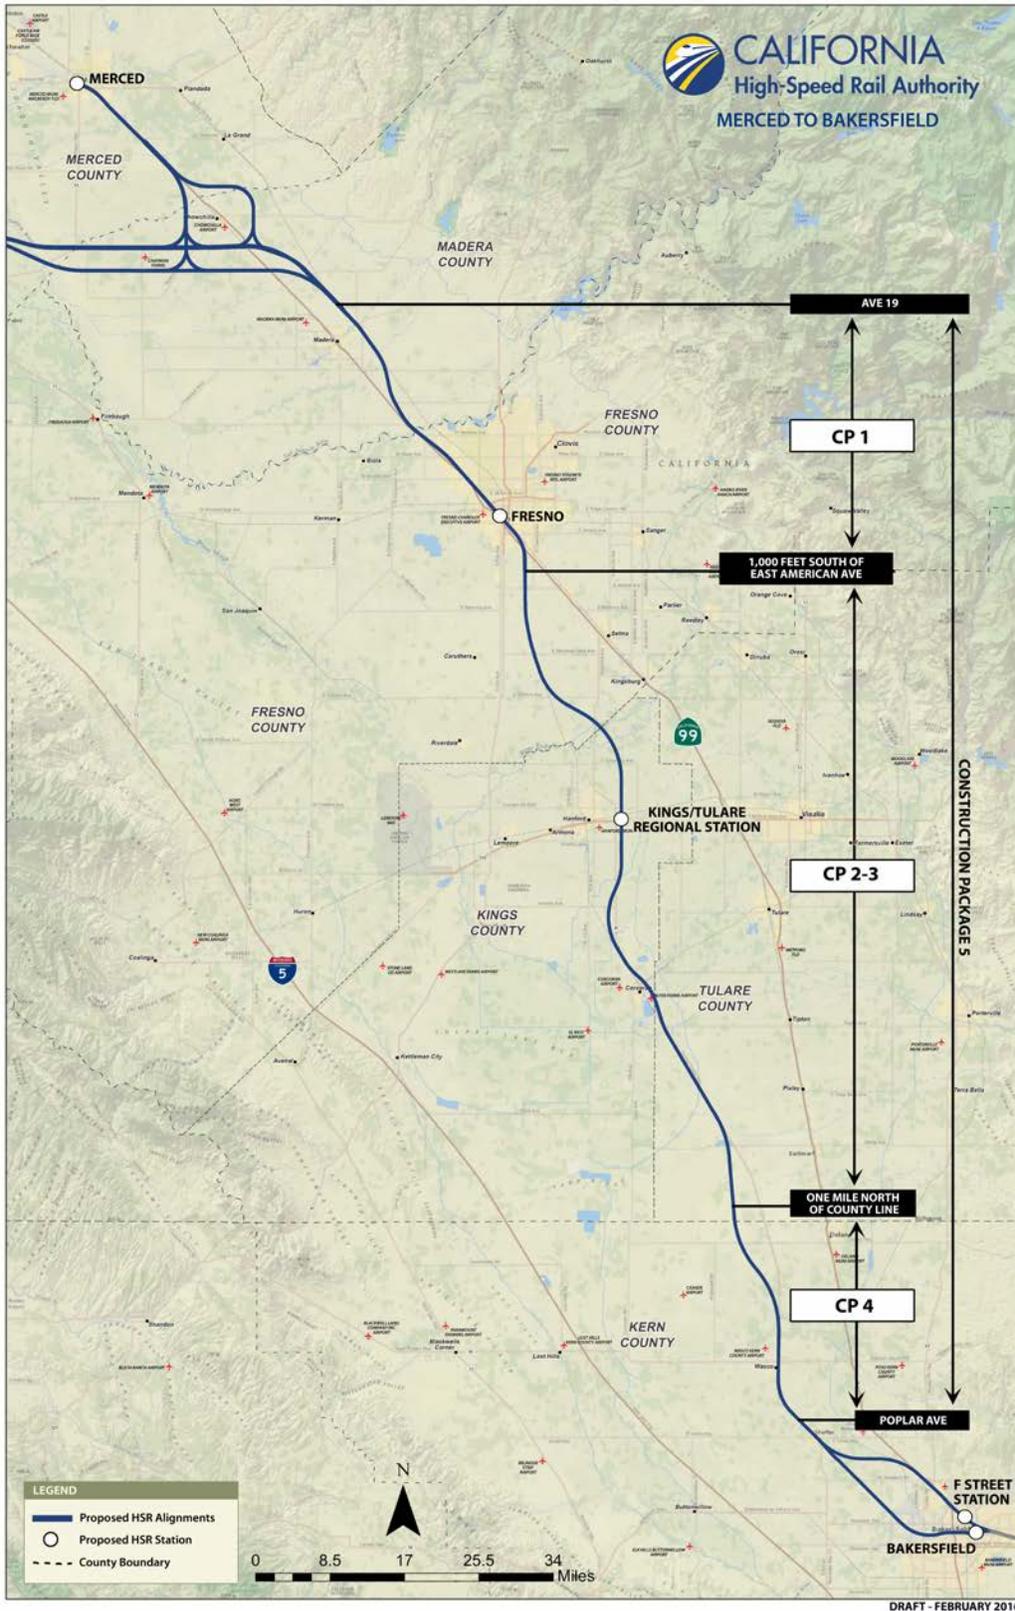

after contract execution. The schedule for ROW delivery will be phased based on construction priorities and in accordance with the applicable ROW Acquisition Plan. The schedule for ROW delivery shall be coordinated by the Authority. Right-of-way is currently being acquired in CP 1, CP 2-3, and a portion of CP 4. Out of approximately 1,500 total parcels identified for acquisition within the construction packages identified above, about 600 have been obtained and delivered to the Design-Build Contractor(s). The balance is in various stages of the acquisition process. North of CP 1, appraisals are currently being completed in northern Madera County. Future acquisition assignments, extending through the Wye section in the San Jose to Fresno segment, north to Merced, and south to Bakersfield, are dependent on completion of environmental review.

For additional information concerning ROW impacts in CP 1, CP 2-3, and CP 4, please refer to the Final Environmental Impact Report/Statement for the Fresno to Bakersfield Section posted on the Authority's web site (http://www.hsr.ca.gov/Programs/Environmental_Planning/final_fresno_bakersfield.html).

The specific rules of contact are as follows:

- A. After submittal of Proposals, no Proposer or any of its team members may communicate with another Proposer or its team members with regard to the RFP or any other team's Proposal with the exception of Subcontractors that are shared between two (2) or more Proposer Teams. Protocols established to ensure that subcontractors do not act as conduits of information between teams are subject to Authority review and approval, at the Authority's discretion.

3.6 Organizational Conflicts of Interest

The Authority has adopted an Organizational Conflicts of Interest Policy (Policy) that will apply to this procurement and the resulting contract, in addition to the Authority's Conflict of Interest Code and other applicable requirements. The Policy can be found on the Authority's website at

http://www.hsr.ca.gov/docs/about/doing_business/Organizational_Conflict_Interest_Policy_Final_9152011.pdf

Proposers are advised to carefully review the Policy, and to have their team members review the Policy, since it includes provisions that:

- 1. Preclude certain firms from participation in this procurement and
- 2. Affect the ability of the Proposers, their subcontractors and their Affiliates (as defined in the Policy) to enter into business relationships with Authority consultants.

Failure to comply with the Policy in any respect, including the failure to disclose any actual, perceived or potential organizational conflict of interest, may result in serious consequences as described in Section V(2) of the Policy.

An organizational conflict of interest is a circumstance arising out of a Proposer's existing or past activities, business or financial interests, familial relationships, contractual relationships, and/or organizational structure (i.e., parent entities, subsidiaries, Affiliates, etc.) that results in: (i) impairment or potential impairment of a Proposer's ability to render impartial assistance or advice to the Authority or of its objectivity in performing work for the Authority; (ii) an unfair competitive advantage for any Proposer submitting a Proposal on an Authority procurement; or (iii) a perception or appearance of impropriety with respect to any of the Authority's procurements or contracts, or a perception or appearance of unfair competitive advantage with respect to a procurement by the Authority (regardless of whether any such perception is accurate). If any such conflict of interest is found to exist, the Authority may:

-
1. Disqualify the Proposer, or
 2. Determine that it is otherwise in the best interest of the Authority to contract with such Proposer and include appropriate provisions to mitigate or avoid such conflict in the contract awarded.

Each Proposer shall fully disclose organizational conflicts of interest in its Proposal, using Form B. The refusal to provide the required disclosure, or any additional information required, may result in disqualification of the Proposer. If nondisclosure or misrepresentation is discovered after award of the contract through this procurement process, the resulting contract may be terminated.

By submitting its Proposal, each Proposer agrees that, if an organizational conflict of interest is discovered following submittal of the Proposal, the Proposer will make an immediate and full written disclosure to the Authority that includes a description of the action that the Proposer has taken or proposes to take to avoid or mitigate such conflicts.

Such letters should be attached to the Transmittal Letter and will not be included in the page count.

5.5.2.3 Key Personnel and Task Managers

Proposer shall identify and name Key Personnel, and may appoint Task Managers for specific assignments. Proposer's Key Personnel and Task Managers will be evaluated on the extent to which the qualifications and experience of each individual listed demonstrates that the Work can be effectively completed; and for the volume of work that the firm is able to take on while assuring timely, quality delivery and progress on assigned tasks. All known subcontractors shall be identified on Form A. For companies included as subcontractors on more than one Proposer team, no individual may be designated as Key Personnel in more than one Proposal.

The Proposal must include information regarding California professional licenses held by the Proposer's Key Personnel and Task Managers. At least one key person responsible for direction and control of the ROW Services shall have one of the licenses below now or by the time the contract is executed:

- Certified Real Estate Appraiser license from the California Office of Real Estate Appraisers
- California Real Estate Broker or Salesperson License issued by the California Bureau of Real Estate

Key Personnel are individuals designated to fulfill the roles described below. They are essential to the team's ability to provide the range of services described in this RFP. Key Personnel can hold additional assignments or be focused solely on the defined roles, but an individual can be assigned only one of the Key Personnel roles. The purpose of naming individuals to these roles is to assure that the team addresses project delivery, status reporting, schedule adherence, and quality; and to assure that the team includes the requisite skills, qualifications, experience and credentials to do the job.

Discuss how Key Personnel are qualified for the roles to which they are assigned, and the authority they will have to direct other staff and contractors and manage workflow. Include the resumes of Key Personnel that demonstrate their experience in working on similar projects with comparable responsibilities. Resumes should be limited to two pages and presented in such a way as to particularly highlight the experience on projects or assignments of a similar nature. Resumes shall demonstrate that the individuals proposed have the appropriate licenses or

qualifications for the relevant assignments. The resumes must include summary chronologies of employment history including dates and titles at each firm. Include the names of projects, client, city, and state. Resumes of administrative and support staff should not be included.

The Proposer shall designate individuals to fulfill each of the following Key Personnel roles:

- a. Project Manager – This individual will be responsible for the day-to-day activities of the ROW services team and be the liaison with the Authority's Contract Manager. They will be responsible for coordinating efforts within the team and with the Authority's public agency partners.
- b. Quality Manager – This individual will be responsible for assuring the professional quality, technical accuracy, completeness and consistency of all ROW services reports, documents, and activities, particularly document packages (e.g. RON packages and AQC packages defined in the Scope of Work).
- c. Delivery Manager - This individual will assure prompt and accurate status reporting, monitor schedules and enforce deadlines, and track delivery of appraisals, ESAs, ROW contracts, and other documents and deliverables for each property acquisition at every stage of the process.
- d. Appraisal Manager – This individual will be responsible for overseeing all appraisal and valuation efforts, making appraisal assignments, coordinating review appraisals, responding to questions and comments on valuation, obtaining specialty appraisal services (e.g., FFE, Goodwill, damages) and the full range of services described in Task 2 of the Scope of Work.
- e. Acquisition Manager – Responsible for direction of the acquisition effort, this individual will be oversee all phases of property rights acquisition and the full range of services described in Task 4 and Task 7 of the Scope of Work.
- f. Relocation Manager – All relocation efforts, services, and claims and the full range of the assignment described in Task 6 of the Scope of Work will be overseen by the named Relocation Manager.

There shall be no change in the Key Personnel without prior written approval by the Authority.

The Proposer shall identify Task Managers, people who hold primary responsibility for fulfilling and carrying out specific assignments. Key Personnel can also serve as Task Managers. Each of the seven major tasks outlined in the scope of work should have a Task Manager. The purpose of identifying these Task Managers is to provide a primary point of contact and accountability on specific work assignments.

Task Managers should be identified for the following:

- Task 1: Administration and Contract Management: the person most knowledgeable about contract terms and budgeting for the project. Responsible for preparation of Task

Orders and invoicing, this individual will monitor the team's fiscal operations and assure compliance with contract obligations.

- Task 2: Appraisal: the individual identified in the Key Personnel as the Appraisal Manager.
- Task 3: Phase I and Phase II Environmental Site Assessment (ESA): the named individual responsible for conducting the required ESAs and delivering the required reports. This person should be an Environmental Professional as defined in American Society for Testing and Materials International (ASTM), qualified to review and sign ESAs.
- Task 4: Acquisition Manager: the individual identified in the Key Personnel.
- Task 5: Property Management and Parcel Delivery: The person primarily responsible for coordinating the services described in Task 5.
- Task 6: Relocation Assistance: the individual identified in the Key Personnel as the Relocation Manager.
- Task 7: Other Real Property Services: the contact person responsible for coordinating and delivering the variety of Real Property Services described in Task 7.

Task Managers are subject matter experts. They work closely with other Task Managers and Key Personnel in coordinating the work effort. More than one Task can be assigned to a Task Manager (i.e., a single person can be manager of more than one Task). Subcontractors can serve as Task Managers and on more than one Proposer team. Include the resumes of designated Task Managers that demonstrate their experience in working on similar projects, their expertise relative to the assigned task, and their qualifications to lead the task for the Proposer.

5.5.2.4 Staffing Plan

The Authority wishes to contract with a ROW Services team with organizational and staffing plans that are appropriate for the Scope of Work described in Exhibit A of Attachment E, and having experienced personnel managing tasks and fulfilling key roles. All known subcontractors shall be identified on Form A.

Proposer's Staffing Plan will be evaluated for the amount of work that the firm is able to take on while assuring timely, quality delivery and progress on assigned tasks; ability to respond to assigned tasks in timely manner; and whether the full range of ROW services are available. The Proposer shall include an estimate of the volume of work, expressed in terms of annual billing, and number of parcels delivered to the Design-Build (DB) contractor per year, that the proposed staffing plan could accommodate. The magnitude of the volume estimate will not determine the Proposer's ranking in the evaluation, but may inform the amount of the contract award, should the Proposer be awarded a contract as a result of this RFP.

The staffing plan will identify the job titles and number of people who will be assigned to the Project, and the percentage of their time available to work on the project. The Staffing Plan shall also indicate whether the Proposer can adapt to changes in workflow by reassigning, adding or augmenting staff, and how additional staff would be made available, if the volume of work or schedule temporarily demands additional staffing.

For the purpose of the Technical Proposal, the Proposer shall identify the available staff by the job titles and responsibilities outlined in the table below. The Contractor will identify the number of people assigned to each job title and the percentage of time available to devote to the Project and that will be committed to the Project if a contract is awarded. For the Cost Proposal which is comprised of the Rate Sheet and Tiering Preference, the Contractor will shall specify maximum rates for the named functions. These maximum rates shall be binding maximum rates for the term of the contract, subject to the escalation provision in Section 2.1.4, Exhibit B of Attachment E. Staff availability and the percentage of time dedicated to the project should be shown year by year for the term of the contract.

The Proposer's team may have a variety of job titles and assignments; if actual job titles and responsibilities for people named in the Staffing Plan deviate from those described, the Proposal should offer a brief explanation.

The evaluation of the work plans shall be based on the Authority's experience with the Project. The work plan that presents a thorough understanding of the Project's schedule and workload requirements, and assigns qualified staff for an appropriate number of hours necessary to deliver high quality documents and services will be rated highest. The estimated number of transactions and hours indicated on the Worksheets will be used solely to evaluate the Proposer's understanding of the scope of work and the approach to staffing and work planning.

The Worksheet shall not be binding on the Authority; this RFP includes no guarantee of work. In the event of a computational error, unit figures will prevail over extended totals. The Authority shall check calculations and recalculate totals.

Part 26, Executive Order S-02-06, Military and Veterans Code 999 and Title VI of the Civil Rights Act of 1964 and related statutes.

The Proposer is expected to make efforts to meet the SB/DBE Program goals and provide a SB Performance Plan on how the goals will be met throughout the contract duration. The Contractor shall clearly identify firms being utilized to meet the SB/DBE Program goals, including the contract value and scope of work that will be used to meet these goals and requirement. The Proposer shall also comply with other SB/DBE Program requirements, including but not limited to SB utilization reporting, substitution/termination processes, and other performance related factors as identified in the Authority's SB/DBE Program. The Authority SB/DBE Program Plan is incorporated by reference into this Agreement. The Proposer is advised to read and become familiar with the Authority SB/DBE Program Plan, which may be found on the Authority's Small Business Policy and Program web page:

http://www.hsr.ca.gov/Programs/Small_Business/policy.html

The Authority shall reimburse the successful Proposer for actual hours worked at the rates identified on the Rate Sheet, plus reimbursable expenses. Proposers shall submit all cost information on Attachment D, Cost Proposal which is comprised of the Rate Sheet and Tiering Preference. All Rate Sheets must include rates for each job classification that shall serve as maximum rate caps that shall remain binding for the term of the contract. The Rate Sheet shall also specify the Proposer's fee, and include it in the maximum rates.

Individuals fulfilling one of the Key Personnel or Task Manager roles shall be compensated at or under the rate for that role, regardless of their other job titles or functions. For example, a Principal serving as Quality Manager shall be compensated at or under the maximum Quality Manager rate for time spent providing quality management services.

The rates listed on the Rate Sheet shall be fully loaded and include all actual direct and indirect costs, including overhead, taxes incidental to the specified rates, and the Proposer's fee or profit. The cost of such items shall be included in the rates provided on the Rate Sheet. The purchase of equipment is not allowed under this contract. The successful Proposal is expected to provide all necessary equipment to perform the Scope of Work.

5.5.4.2 Tiering

The Cost Proposal shall also indicate the Proposer's preferred tier for contract award. Based on current staff and consistent with the Staffing Plan submitted with the proposal as described in Section 5.5.2.4, the Proposer shall indicate its preferred tier for contract award. The Authority intends to award multiple contracts to the best qualified teams in amounts appropriate to the volume of work that each team can deliver with high quality results and within the schedule set by the Authority.

The total dollar value for all contracts resulting from this RFP is not to exceed \$34,000,000 to \$44,000,000. It is anticipated that multiple contracts will be awarded. Contracts awarded under this RFP may be for different not to exceed amounts. Actual contract amounts are entirely at the Authority's discretion; there are no assurances expressed or implied that amounts awarded will be within the range specified as the Proposer's preferred tier. The assignment of tiers shall be based on the Proposers perceived capacity as shown by the Cost Proposal. The amount

awarded to each Proposer invited to contract with the Authority will be based on perceived capacity, not final score or ranking. Agreements shall be executed in order of final ranking, regardless of capacity or award amount.

The tiers are for Small(S), Medium (M) and Large (L) Proposers as follows

Tier S:	\$1 million to \$6 million
Tier M:	\$6 million to \$10 million

Task 4.5.3: Resolution of Necessity litigation support – reimbursed by time and materials.

Task 5: Property Management - reimbursed by time and materials, with 10% retention as required by State Contract law. The Contractor can simultaneously invoice for the associated retention of said completed service to be paid concurrently with the invoice for that service.

Task 6: Relocation Assistance – reimbursed by time and materials, with retention paid upon successful completion of the Task.

Task 7: Other Real Property Services – reimbursed by time and materials, with retention paid upon successful completion of the Task.

6.0 Evaluation and Negotiation

The following summarizes the Proposal Review, Evaluation, and Negotiation processes.

6.1 Proposal Review

The Authority shall review and evaluate each Proposal to determine if it meets the requirements contained in Section 5.0 and Attachments A through C. Failure to meet the requirements of the Request for Proposals may result in the rejection of the Proposal.

The Authority may reject any Proposal if it is conditional, incomplete, or contains irregularities. The Authority may waive an immaterial deviation in a Proposal. Waiver of an immaterial deviation shall in no way modify the Proposal documents or excuse the Proposer from full compliance with the contract requirements if the Proposer is awarded the contract.

6.2 Proposer Evaluation

The Minimum Requirements and Proposals shall be evaluated on a consensus basis. The Authority shall first evaluate whether the Proposals meet the Minimum Requirements on a pass/fail basis. Proposers that meet all Minimum Requirements shall then have their Technical and Cost Proposals evaluated and scored. All Proposers who receive a score of 85 percent (59.5 points out of a possible 70 points) or higher shall be invited to participate in interviews. The Proposer with the highest Final score, including the Technical Proposal, Cost Proposal, and Interview scores, shall be identified as the highest-scored Proposer.

6.2.1 Minimum Requirements

The Proposer must submit all of the required information as described in Attachment A: Minimum Qualifications Checklist. All of the information identified must be included for the Proposal to be considered responsive. Proposals with missing or incomplete information may be rejected. If a Proposer passes this phase, its Technical Proposal will be evaluated and scored.

6.2.2 Technical Proposal Evaluation

The Technical Proposal shall be evaluated and scored in accordance with Attachment B: Written Proposal Evaluation Scoring Sheet. The Technical Proposal can receive a maximum of 40 points, or 40 percent of the final score.

The Authority shall evaluate each Proposal to determine its responsiveness to the RFP. The Technical Proposal shall be scored by the Authority using a consensus point system. The Technical Proposal points shall be assigned based on consensus of the Evaluation/Selection Committee scores for determining the Technical Proposal scores.

6.2.3 Cost Proposal Evaluation

The Proposer shall complete the attached Rate Sheet Form located in Attachment D when submitting its Cost Proposal. A Cost Proposal can receive a maximum of 30 points, or 30 percent of the final score.

Cost Proposals shall be evaluated by comparing the Proposer's "Maximum Loaded Hourly Rate (\$)" rates for each job classification to the lowest of all proposals' "Maximum Loaded Hourly Rate (\$)" rate for that job classification. The lowest rate shall be rated the highest, and all other Proposers' rates will be pro-rated against the lowest rate.

For each classification, the lowest cost proposal "Maximum Loaded Hourly Rate (\$)" will be awarded the full weight. The remaining cost proposal "Maximum Loaded Hourly Rate (\$)" will be award cost points based on the Cost Proposal Formula below:

$$\text{(Lowest Cost by Classification/Other Cost by Classification)} \times \text{Classification Weight} = \text{Proposer Classification Cost Score}$$

The Total Cost Proposal Score will be a sum of each proposer's Classification Cost Scores.

$$\text{Proposer Total Cost Proposal Score} = \text{Classification 1 score} + \text{Classification 2 score} + \dots + \text{Classification X score}$$

A Cost Proposal can receive a maximum of 30 points The Cost Proposals submitted will be awarded the percentage of the available 30 points based on the total of their overall Classification Scores. Reference Attachment ___ for an additional example of the individual and Total Classification Scoring. The Cost Proposals will be awarded cost points based on the Cost Proposal Formula below:

$$\text{(Total Cost Proposal Score} \times 30) / 100 = \text{Total Cost Proposal Score}$$

Vendor A	$(49.06/30) \times 100 = 14.7$ points
Vendor B	$(78.50/30) \times 100 = 23.55$ points
Vendor C	$(90.69/30) \times 100 = 27.21$ points

The Cost Proposal score will be added to the Technical Proposal score, for a maximum possible technical score of 70 points.

6.2.4 Interviews

The Authority will conduct interviews, at a minimum, with all Proposers receiving a score of 85 percent (59.5 points) or higher on the Proposals score, including both the Technical Proposal and Cost Proposal. Proposers with scores under 85 percent may be invited to participate in Interviews at the sole discretion of the Authority. Interviews will be separately scored using the criteria in Attachment C. The Final Scores will be established after the Interviews.

6.3 Final Scores

Final Scores will be established after all Interviews are completed. The Final Scores will be calculated as follows:

Technical Proposal Score = Maximum 40

Cost Proposal Score = Maximum 30

Interview Score = Maximum 30

These scores will be added together to establish the Final Score.

6.4 Notice of Proposed Award

After the Proposers with the highest total Final Scores are determined, the Notice of Selection will be posted on the Authority's website at http://hsr.ca.gov/About/Doing_Business_with_HSR/contracts_for_bid.html.

6.5 Debriefings

After the Notice of Proposed Award is posted, Proposers may request a debriefing with the Authority Contracts Office. The meeting shall be requested within 10 business days from the date of the Notice of Proposed Award. The debriefing meeting is an opportunity for unsuccessful Proposers to learn why their particular Proposal was not successful and may provide insight to improving proposal preparation for future solicitations.

7.0 Protest Procedures

A Proposer may file a protest against the proposed awarding of a contract. Once a protest has been filed, contracts will not be awarded until either the protest is withdrawn, or the Authority cancels the RFP, or DGS decides the matter.

Please note the following:

- Protests are limited to the grounds contained in the California Public Contract Code Section 10345.
- During the five working days that the NOPA is posted, protests must be filed with the DGS Legal Office and the Authority Contracts Office.

-
- If the protest is not withdrawn or the solicitation is not canceled, DGS will decide the matter. There may be a formal hearing conducted by a DGS hearing officer or there may be briefs prepared by the Proposer and the Authority for the DGS hearing officer consideration.
 - The Authority shall comply with the procedures outlined in PCC § 10344 in the determination of any protest resulting from this RFP.
 - Protests must be mailed or delivered as directed below, with a courtesy copy mailed or delivered to the Authority's Point of Contact listed in Section 3.1 of this RFP:

The Authority requires that the Contractor maintain a temporary or permanent office in one of these counties staffed and open for business during normal business hours throughout the term of the Agreement, or to designate an Authority office address as its point of beginning for all travel expenses. The Contractor shall maintain all records related to this Agreement in its approved office location, and shall allow the Authority to access those records during normal business hours.

All associate or journeyman level acquisition and relocation agents shall have a minimum of three years of experience performing the duties under the Scope of Work that are assigned to them. The Authority also reserves the right to retain a portion of any time and materials payment until the successful completion of the TO. The Authority shall not reimburse Contractor for time or materials to rework or correct inaccurate, substandard, defective, or

rejected Work. Contractor and their subcontractors must have a record keeping system capable of segregating time spent correcting inaccurate, substandard, defective, or rejected Work.

Task 2.1 Hazardous waste.

The appraisal must consider the impact on value that hazardous waste present on the site may have. Therefore, the appraisal assignment is not complete without conducting an Environmental Site Assessment as described in Task 3. To complete the appraisal process, Phase I ESAs will be required, and if indicated, Phase II reports will be required. All pertinent information included in technical reports prepared in support of the environmental review process shall be considered when performing this subtask. Phase I ESAs shall comply with American Society for Testing and Materials International (ASTM) Practice E1527-0513. The Authority's ROW Manual and the Caltrans ROW manual provide further guidance.

Task 2.2 Appraisal Review.

For all appraisals with value conclusions over \$25,000, the Contractor shall provide appraisal review services developing and reporting an opinion about the quality of another appraiser's work. Appraisal reviews shall be subcontracted to a person or firm that is independent from the Contractor or Subcontractor that prepared the appraisal assigned for review. Personnel performing a review may not have prepared any of the appraisals for the project. Reviewers working under this contract must be appraisers who meet all the qualifications of appraisers required under this contract, and who also meet the USPAP Competency Rule. Appraisal reviews shall meet all USPAP requirements and standards.

Task 2.3 Appraisal of Residential Properties

The Authority encourages use of the Uniform Residential Appraisal Report form (URAR) for appraising total acquisitions of improved single family residential properties and two to four unit residential properties. This includes properties improved with mobile homes as realty. The URAR form appraisal may be used only if the land's highest and best use conforms to the existing use. The acquisition may include excess property providing an appropriate allocation of land and improvement values between excess and right of way is made. When using the form appraisal, a Parcel Appraisal Page must still be included in the appraisal report for each parcel appraised, together with any other forms that are pertinent to the appraisal.

Task 2.4 Appraisal Waiver

For acquisitions valued under \$25,000, the Authority has a policy allowing and encouraging an alternative valuation process. This Waiver Valuation process can be conducted by Acquisition agents, and shall be considered at the outset of the appraisal process for all eligible properties. The Contractor shall evaluate

all parcels assigned for appraisal for whether a waiver could apply, and prepare a candidate list for review with the ACM.

Task 2.5 Additional Appraisal Services

The Contractor shall provide other appraisal and valuation determination services as required, and in conformance with 2.1 herein, which may include, but not be limited to the following:

- Appraisal of Furniture, Fixtures and Equipment

Task 2.6 Personal Property and Improvements Pertaining to Realty

In addition to preparing and supplying the Parcel Occupancy Data form after the first contact with the owner, the appraiser will be REQUIRED to invite the assigned relocation agent to accompany the appraiser during the inspection of the property, for the purpose of identifying and reaching an agreement with the owner on machinery, equipment and fixtures and or improvements pertaining to the realty and the ownership of these items (owner or tenant).

Task 2.7 Appraisal Guidelines, Standards and Requirements

The Authority’s ROW Manual, with additional reference to Caltrans’ ROW Manual Chapter 7 and other Chapters as required, shall be utilized for direction and guidance for all work performed under this task, except as provided for in existing Authority policy and/or procedure.

Appraisals will generally conform where appropriate to the appraisal assignment to the Caltrans ROW Manual Chapter 7, specifically but not limited to the provisions of 7.03.02.00 which requires separation of values for Land and improvements for both the ROW being acquired and for any excess land also being acquired. Where excess is to be acquired, the valuation of the required ROW and the excess will be

the primary appraisal. However, the appraisal report shall include an alternative value which estimates the value of only the required ROW and the net severance damages to the remainder(s).

The appraiser's attention is specifically drawn to the following sections of the Caltrans Right-of-Way Manual that must be considered or adhered to as appropriate for the appraisal assignment:

7.01.04.02- Jurisdictional exceptions

Task 2.8 Revisions to Appraisal Reports

Completed and reviewed appraisal reports will be submitted to the Authority for acceptance and then forwarded to Department of General Services along with the Phase I ESA for review and comment. Any questions raised or revisions requested by DGS will be addressed by the Appraiser and returned within two weeks. The Appraisal task is not complete until DGS has approved the appraisal and set the amount of Just Compensation.

Task 2.9 Recordkeeping

The appraisal process and all work activities and property owner contacts shall be documented in a parcel diary and in the ROWMIS.

Task 3: Phase I and Phase II Environmental Site Assessments (ESA)

The Contractor shall prepare a complete work plan to document assumptions and limiting conditions that are normal to this type of work. For partial acquisitions, the work will be limited to the acquisition areas only and not the entire parcel to the extent feasible or applicable.

Evaluation reports shall be submitted to the ACM for approval and logged in the ROWMIS and posted to SharePoint as described in Task 1.6.

Task 3.1: Phase I Environmental Site Assessments

The Authority uses Caltrans legal staff to conduct Eminent Domain proceedings. These review procedures must be accommodated and incorporated in the Contractor's schedule, and coordination with and assistance to the Partner Agencies is included in the Scope of Work. Any further relevant information in this regard will be provided after contract execution.

Task 4.1 First Written Offer.

Contractor shall perform negotiations with a minimum of four in-person field visit contacts and within 30 days of mailing or delivering the purchase documents. Performance of

negotiations includes explaining the fair market value appraisal, supplying answers to owner questions, supplying maps, project plans, or other exhibits requested by landowner, looking at additional data or sales provided by owner, and obtaining owner signature(s) on the deed and three copies of the ROW Contract.

If owner signature(s) have not been obtained within the 30 days of mailing or delivering the purchase documents, or if negotiations reach an impasse prior to 30 days, the Contractor shall provide a completed and Quality checked Resolution of Necessity (RON) Request to the Authority for processing. Negotiations with the owner are to continue until the filing of an action in eminent domain. After adoption of the RON, communications with the owner and continued negotiations will be coordinated with Authority's Legal Team.

A reasonable extension may be granted if the property owner is unavailable during that week.

Task 4.4 Acquisition Quality Control Package

If the appraisal or Memorandum of Appraisal Update date of value will be more than six months old at the time of submittal of the RON Package, the Contractor is responsible for timely requesting from the appraiser a Confirmation of Market Value (CMV), which must be included in the RON Package. The legal descriptions are required to separate out the portion of the property required for ROW from any portion that is excess or an uneconomic remainder and proposed for condemnation. An assessment of owner's intentions regarding excess land (if any), and whether the owner intends to grant a Possession and Use Agreement (PAU) will be documented in the parcel diary. The package shall also include a descriptive statement for inclusion in the Public Works Board agenda, identifying the property location and how it will be used for the high-speed rail project.

The Contractor shall clearly explain the RON and condemnation processes and also explain that the owner will be receiving a notice of a RON hearing from the Public Works Board (PWB) in approximately two to three weeks, however, it will be approximately three months before any action is filed with the courts. During this time negotiations will continue in good faith and shall include a minimum of five additional meetings with the owner. The Contractor shall explain the RON process and emphasize that valuation will not be considered when the PWB considers passing a RON, as only the four items specified in the Code of Civil Procedure Section 1245.230, et. seq., will be considered.

Task 4.5.4 Litigation support

The Authority currently uses Caltrans Legal staff for eminent domain cases. After adoption of the RON, the eminent domain case will be assigned to an attorney. The Contractor will provide the assigned attorney with necessary documents and information including the last offer (or recommended settlement amount) and demand made by the Agent and the Owner; whether additional negotiations or Owner contact have occurred, and the Agent's plan to continue that negotiation. If requested, Contractor will schedule a field inspection of the parcel(s).

Within two weeks of assignment and prior to filing for condemnation, Legal will contact the Owner to reach out to the Owner (or Owner's counsel), to discuss settlement. Once the eminent domain suit is filed, Contractor must immediately notify the property owner of impending service. Before Legal files the Order of Possession (OP) package, Contractor must verify that no other agreements or contracts have been established. The Contractor must ensure compliance by its Subcontractors with and include appropriate flow down provisions in its each of its lower-tier subcontracts as required by applicable Federal laws, regulations, policies, and related administrative practices. Some Federal requirements applicable to the Contractor are identified elsewhere in the RFP. This identifies Federal requirements contained in the Grant/Cooperative Agreement between FRA and the Authority, which are applicable to the Contractor and are not addressed elsewhere in the RFP that served as the basis for this Agreement.

The Contractor shall ensure compliance by its subcontractors and include appropriate flow down provisions in each of its lower-tier subcontracts as required by applicable federal laws, regulations, policies and related administrative practices, whether or not specifically referenced herein.

Notwithstanding anything to the contrary contained in this Agreement, all FRA mandated terms shall be deemed to control in the event of a conflict with other provisions contained in this Agreement. The Contractor shall not perform any act, fail to perform any act, or refuse to comply with any Authority requests, which would cause the Authority to be in violation of FRA requirements.

2. COMPLIANCE WITH FEDERAL REQUIREMENTS

The Contractor's failure to comply with Federal Requirements shall constitute a breach of this Agreement.

The Contractor agrees to comply with the Procurement Standards requirements set forth at 49 C.F.R. Section 18.36 and with applicable supplementary U.S. Department of Transportation (U.S. DOT) or FRA directives or regulations. If determined necessary for proper Project administration, FRA reserves the right to review the Contractor's technical specifications and requirements.

The Contractor shall obtain appropriate certifications from each such subcontractor and provide such certifications to the Authority.
